

PURONICS® Hydronex™

The Next Generation of Ionics Solutions

Solve your water problems with the efficiency of computerized control.

The Puronics® Hydronex™ whole-house water conditioner provides superior quality water. This cost-effective hi-tech system utilizes a computerized control valve to monitor your water usage and maintain optimal effectiveness of the filter media ensuring you always have the highest quality water. The multi-layered filter media tank combines an outer cover of stainless steel with the durability and protection of two additional layers.

Hair and skin are soft and silky

Food tastes better

Dishes are cleaner

Better tasting beverages

Computerized Control For Maximum Efficiency

- ▶ Patented Solid State Microprocessor controls operation of system
- ▶ Measures water usage to backwash and recharge when necessary
- ▶ Creates auto reserve so you never run out of quality water
- ▶ Double backwash ensures a clean filter media bed
- ▶ Ensures consistent superior quality water

HYgene® Bacteriostatic Filter Media - NASA's Technology at work in your home

HYgene Filter Media

- ▶ Incorporates technology used aboard the NASA Space Shuttle Orbiters
- ▶ Silver impregnated activated carbon inhibits growth of bacteria within the filter media bed while refining your water

Computerized Control Valve

Three Piece Filter Media Tank

- ▶ Inner liner of Polyethylene
- ▶ Outer layer of fiberglass
- ▶ Stainless Steel Outer Cover

Bacteriostat

- ▶ Silver Bacteriostat is impregnated into HYgene® media to inhibit bacteria growth within the filter media bed

Refiner

- ▶ HYgene® media reduces objectionable chlorine and chloramine tastes and odors

Conditioner

- ▶ High-Capacity S-759 monospheric resin has uniform sized beads for higher flow rates and efficiencies
- ▶ Reduces iron and turbidity and removes hardness

Clarifier

- ▶ Silica gravel polishes water to a sparkling clarity

Your Authorized Independent Dealer:

Contaminants or other substances which can be removed by the Puronics® Hydronex™ system are not necessarily in your water. Operational maintenance and replacement requirements are essential for the product to perform as advertised. Actual savings achieved are dependent on your particular spending habits and usage levels.
